Can't rest at night with a bad back. A lame, a weak or an aching one. Doan's Kidney Pills are for bad backs.

They cure every form of kidney illness. From common back ache to diabetes. They are endorsed by Bryan people.

L. B. Kern, Bryan, Texas, says: "I cannot recommend Doan's Kidney Pills too highly, as they were of great benefit to me. Sharp pains in my back kept me from sleeping and as the result, I felt miserable. The kidney secretions were also too frequent in passage. In fact, I had but little control over them. Doan's Kidney Pills, procured from Emmel & Maloney's drug store, stopped the pain, strengthened my kidneys and brought results that were gratifying in every way."

For Sale by all dealers. Price 50 cts. Foster-Milburn Co., Buffalo, N. Y., sole agents of the United States.

A young man of Conova, Ill., recently took his sweetheart for a ride. It is recorded that she fell out of the buggy, while her lover drove two miles before he discovered that she was missing. When this announcement was made to the public, the editor of the Hartford (Ala.) Times became wrathful, and taking his pen in hand, and in a burst of righteous indignation, he wrote: "When we were a young lover, the hind wheel might come off, the spring break or the horse fall out of the shafts without our knowing it, but the girl was always safely anchored."—Credit Lost.

### PATENT'S MAMMOTH COTTON PROFITS.

special to the Eagle.  
New Orleans, La., Oct. 29.—A report from New York last night was that James A. Patten of Chicago had cleaned up \$4,000,000 in cotton today and that William P. Brown and Frank B. Haynes of New Orleans and E. G. Scales had made as much as patten did. There have been rumors here that the bull contingent had made a killing, but no facts could be obtained. Frank B. Hayne, famous bull leader, was found at the Pickwick Club late tonight and shown the New York dispatch.

So far as I am concerned the report is rank nonsense," he asserted. "No man ever made four million in cotton in one day since trading first began."

Mr. Hayne did not deny that the bull contingent had enjoyed a profitable day. He did not discuss that phase of the subject.

GENEROUS OFFER.

E. J. Jenkins Guarantees: Parian Sage to Cure Dandruff, Stop Falling Hair or Itching scalp or Money Back.

But Parian Sage is more than a cure for dandruff—it will make hair grow on any head where the hair bulb is not altogether dead.

And we want every reader of the Eagle to know that Parian Sage is the most delightful hair dressing in the world. It is so pleasant to use, and its effect is so invigorating and refreshing, that it pleases everybody.

The women of Paris are, as a rule, beautiful and keep beautiful, and a careful American observer who has traveled much claims that their beauty is due to their knowledge of how to keep their hair luxuriant, which they do by using a superior hair tonic.

Many American women are as wise as their French sisters, and that is why Parian Sage, the quickest acting and greatest of all hair restorers and tonics, is now having such a tremendous sale in America.

Mothers who want their children to grow up with vigorous and lustrous hair should surely use Parian Sage.

Parian Sage is sold by leading druggists everywhere and in Bryan by E. J. Jenkins at 50 cents a bottle. Mail orders filled; all charges prepaid by the American maker, Giroux Mfg. Co., Buffalo, N. Y.

Girl with the Auburn hair is on every package.

NEW INSTRUCTOR IN MATHEMATICS.

Prof. Nichols Comes From Mississippi.

(From the Battalion.)

The latest addition to the teaching force of the College, is Mr. Irby C. Nichols, whose enthusiasm as to athletics, directed suspicion to him, and the boys were getting ready to build a fire under him, until they found he was all o. k.

Mr. Nichols' entry into A. and M. College life was quiet, and unostentatious. He is a pleasant young man, who fits into his place like it was built for him, and he does not blow a horn or start out to tell how it is done where he came from. He came here to teach "math," and to him has been assigned the sub-freshmen who need a good man to start them out with the figures and lines. He has his B. S. from the University of Mississippi in 1906 and his M. A. from the same institution in 1908. He taught in the public and high schools of that state for two years before entering the University in 1901. After two years in the University he dropped out and taught as principal of a Mississippi high school. He was appointed fellow and assistant in mathematics during his junior year at the Uni-

versity. He was promoted while there, and voluntarily retired from the position in 1908. When he graduated in 1906 he was valedictorian of his class.

He came to Texas from Eudora, Miss., where he was superintendent and principal of the schools.

Mr. Nichols is an enthusiast on sports and especially as to football. As soon as he arrived here he became interested in the success of the team, and watched the practice when he could and was very joyful at last Saturday's game.

But he got to asking questions.

A lot of fellows around here did not know who he was, and when he would be in the library, he would quiz the cadets about the team. He wanted to know who this man was and who that one, and as he made inquiries it looked like he was going down the line and then back again. In fact he appeared to be seeking information, and being a stranger to these boys whom he was questioning, they carried the news to the players. Hooker, of the squad, was sent to find out who this curious person was. If there was a spy in camp who was spending some time watching practice and asking questions, he must be looked after, and looked after quick. The truth is, the boys thought may be he might be "doping out" the strength of the team for Varsity, for Baylor or Oklahoma.

So Hooker started on his trail.

The big fellow found the stranger occupying an unassuming position in the library, and having him cornered he got between the visitor and the door, and then asked some one there if he knew him. The first one questioned did not, the second one had never seen him before, but the third one did know, and Hooker's fears were relieved when he found he was a new math instructor, and that he means well for the College and will carry the colors of A. and M.

When Mr. Nichols heard about the suspicion that attached to him, he answered "Just tell them to watch for me in the cheering section at the Houston game, and I'll be carrying the red and white and shouting as loud as any one."

NEW INSTRUMENTS FOR THE BAND.  
(From the Battalion.)

The band as well as other branches of the college, has made wonderful improvement this year, both in numbers and in quality of its music.

Two drums, a baritone saxophone and a tenor saxophone have been lately added, and they help out wonderfully. Rufe Adams is manipulating the big saxophone and is there with the goods. In noise and tone his huge instrument can make the big basses blush for shame.

The members have been working hard on some new music, in order to make a good impression while on the Henderson, Houston and Austin trips. They wish to catch the eye of the Texas people on the occasion of the grand parade of King Nottow on Nov. 8th.

The band is an organization the students are very proud of, and they have every right to be, if for no other reason than in the comparison of our band with that of Varsity last year as the student bodies paraded down Congress avenue.

The band boys are a very enthusiastic bunch and at any time and on all occasions, have never failed to arouse the most dormant college spirit with that old standby, "Love Nobody but you Babe."

JUST DIG-DIGS—THAT ALL.

The big man in the purple shirt accosted the studious little man who was waiting for the "L" train.

"Beg pardon neighbor," said the big man, as he opened his paper, "here is something I couldn't understand."

"What is that, sir?" asked the little man, curiously.

"Why it states here that Col. Roosevelt shot a dig-dig. What is the dig-dig?"

The little man smiled.

"My friend, a dig-dig is an animal that digs. When one dig-dig starts to dig the other dig-digs dig deeper than this dig-dig. Then this dig-dig digs and digs and digs until—"

"Hold on! Which dig-dig?"

"The first dig-dig. The other dig-digs dig and dig to catch up with the other dig-dig's digging. Then the first dig-dig digs and digs till the other dig-digs—"

But the big man in the purple shirt covered his ears with his hands and fled, and all day long the "dig-dig" rang through his brain until he vowed Teddy was an enemy to mankind to discover such an animal—Chicago Daily News.
